Subject: Cote d'Ivoire - Sponsorisation emission radio

Although the text of Art.No 4 does not ban the use of radio sponsorship, the spirit of the COC does not allow it either.

In any way PM's policy worldwide is to avoid advertising thru media targeting teenagers and youngsters in general.

The proposed broadcast is on Sundays from 15h to 19h and is definetely addressed to the target group we have to avoid.

In conclusion that means , even if we are legally allowed , taking in consideration PM's policy (not to target the young groups) , I will strongly recommend to drop this project and make sure that our competitors do not benefit based on the article No 4 of the COC.

Best regards
